- ◆ Maintain comprehensive vendor information including multi-period activity history, alternate remit address, alternate “ship from” address and vendor notes.
- ◆ Purchase Order information includes date requested, date expected, date cancelled, ship via, shipping terms and remarks for each PO.
- ◆ Purchase Order details include item code, quantity ordered, unit cost, quantity received, balance due, expected ship date and notes.
- ◆ List printed or unprinted, holds, completed or all Purchase Orders, in Vendor or PO sequence, in detail or summary format.
- ◆ Automatically adjust inventory upon PO receipt.
